On Friday Carlisle defeated Flemingsburg in a well played game of ball by the score of 7 to 4.

On Saturday Carlisle and Mt. Sterling crossed bats for the championship, the former winning by the score of 6 to 3, both teams played good ball. Howell Hunt pitched both games for the local team and did exceptionally well and with better support would have won both games. In the game with Carlisle he only allowed 4 hits.

There was a large crowd from here other than the contestants in attendance and every one had a most enjoyable time. The dance Friday night was an exceptionally delightful one. Saxton & Trost orchestra furnished the music.

Kemper is State Champion.

The many friends here of Joseph H. Kemper were glad to learn of his winning the State championship in the clay pigeon shoot at Dayton last week. Mr. Kemper broke 95 out of a possible 100 and defeated Mr. Hammersmith, the favorite, who had previously made a run of 101 straight.

This is quite an honor for Mr. Kemper, and we are glad indeed to know that the champion shot of the State claims Mt. Sterling as his home.

MRS. MARY ANDERSON

A Much Beloved Woman, Dies Suddenly of Paralysis on Richmond Avenue Saturday Night.

Mrs. Mary J. Anderson died suddenly Saturday night of paralysis at the home of her daughter, Mrs. J. D. Harper, on Richmond Avenue. Mrs. Anderson had only been sick a few days. Deceased was in her seventy-fifth year and had been in splendid health until a few days before her death. She had been a resident of this county for many years and was a most excellent Christian woman, widely known and loved. She had long been a widow, her husband, Wayne Anderson, having preceded her to the grave many years ago.

Funeral services were held on Monday afternoon at four o'clock at the residence of Mrs. J. D. Harper and were conducted by Rev. H. G. Moody, the Presbyterian minister, of which church Mrs. Anderson had been a member for many years. She is survived by two daughters, Mrs. E. H. Patterson, of Pineville, and Mrs. J. D. Harper, of this city.

The city and county has sustained a great loss in the death of this excellent woman, but it should be a great source of consolation to her children to know that hers was a life well spent in the service of her Lord. The Advocate extends sympathy in their bereavement.

Public Speaking.

Edward J. McDermott, of Louisville, Democratic candidate for Lieutenant Governor, subject to the action of the Democratic primary, will address the voters of Montgomery county in this city, Wednesday, May 31st, at 1 o'clock. MONARCH MILL

Visited by Fire Monday Night and a Big Warehouse Partially Destroyed, Together With Considerable Wheat and Corn.

Monday night about 11 o'clock the fire department was called to the warehouse of the Monarch Mill Company, located just back of the mill. The fire was well under headway and before it could be extinguished considerable damage had been done to the building and a car load of wheat and a large amount of corn was destroyed.

The warehouse of the Trimble Grocery Company was also damaged, mostly by water, but the loss to its contents will be heavy.

The damage to the two warehouses will amount to several thousand dollars, partially covered by insurance. The origin of the fire is unknown, but it is thought to have been caused by a hot box on some part of the machinery.

A. S. Hart Appointed Committee for W. T. Fitzpatrick.

Esq. Chas. G. Thompson, acting County Judge designated R. A. Chiles, of this city, as committee for W. T. Fitzpatrick, found by a jury to be mentally incompetent to manage his large estate, last week.

Before the appointment much speculation was indulged in as to who the court would appoint, but no one seemed to tip Chiles as a winner. The announcement of his appointment therefore came as a distinct surprise and brought forth a storm of protests from Mrs. Bettie Fitzpatrick, who has been the wife of Mr. Fitzpatrick for thirty-nine years and from Thos. W. Fitzpatrick, adopted son, whom Mr. Fitzpatrick has raised from a baby of seven months old. They objected to Chiles upon the grounds that the law required some competent and disinterested person to be appointed; they contended that Chiles, not being a farmer, could not manage the large farming interests of over one thousand acres, without great expense in hiring assistance and being attorney for S. P. and John D. Greenwade, two nephews of Mr. Fitzpatrick, who were claiming to hold under a deed of trust executed to them by Mr. Fitzpatrick, while insane, was not a disinterested person. They urged the court to appoint some intelligent and honest farmer, not related to either of the parties or their attorneys. The Fitzpatricks and their counsel withdrew to reduce their objections to writing and announced their purpose of prosecuting an appeal, if the appointment of Chiles was permitted to stand.

When the hour for their return arrived, Chiles brought matters to a close by announcing his declination of the appointment and A. S. Hart, a disinterested and competent farmer, was appointed.

This appointment met with the approval of both sides and Mr. Hart is now discharging his new duties. No better appointment could have been made and we feel sure his services will be satisfactory to all concerned.

Base Ball.

The Mt. Sterling Collegiate Institute team will play the Flemingsburg team on the latter's grounds Friday and Saturday. It is expected both of these games will be hotly contested but our boys are confident of winning both games.

Narrow Escape.

While driving on the Howard's Mill pike last Sunday afternoon, R. K. Weedon had a rather narrow escape from death. A large tree fell across the road striking the horse across the head and shoulders and rendered the animal senseless, the limbs on the tree badly scratched Mr. Weedon's legs and arms, and but for his seeing the tree in time to jerk the horse partly out of the way he doubtless would have been killed.

Hoosier Cabinet Display.

The Hoosier Kitchen Cabinet display at C. W. Harris' furniture store last week created a great deal of interest and a large number were sold. There was a large crowd of interested ladies at the store all day Saturday, in fact the store was crowded a great deal of the time. Mrs. O. S. Bigstaff was fortunate enough to win the cabinet that was given away.

Killed in Menifee County.

James Hudson, the young son of Levi Hudson, was killed by a falling tree, while felling timber on Spaw's creek, in Menifee county. The tree caught the boy as he ran and the sharp limbs cut and tore the flesh from his body. His head was mashed into a pulp.

Her Temperament.

An Atchison girl was not looking well and her mother said to her: "It is your temperament which keeps you feeling badly." The girl walked around in a happy dream; she felt she was different from other people; she had "temperament." Her mother came to her in a day or two with an ugly yellowish brown mixture and said: "Take this surbur and molasses; you have a bilious temperament." The girl collapsed.—Atchison Globe.

FRECKLES.

Don't Hide Them With a Veil; Remove Them With the New Drug.

An eminent skin specialist recently discovered a new drug, othine—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion that it is sold by W. S. Lloyd under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask W. S. Lloyd for the double strength othine; it is this that's sold on the money guarantee.

Unexpected Guests

The farmer and his wife were about to sit down to a cold supper when they saw some old friends driving towards the house.

The good wife was equal to the occasion—thanks to her New Perfection Oil Cook-stove.

She had it lit in a moment, and her guests hardly were seated on the porch before a hearty hot meal was ready for the table—sausages and eggs and long rashers of streaky bacon, and rolls just crisped in the oven and fresh coffee—and the hostess herself as cool and neat as if she had not been near the kitchen.

She never could have managed it with an old-fashioned range. The New Perfection is the quickest, most convenient and best cooker on the market.

Farmers and the Horse Business.

Horses constitute the greatest live stock asset of American farmers. Much is said in a popular way about the importance of the beef-making industry; continual praise is meted out to the hog for his mortgage-lifting capacity, and abundant figures are adduced to show that through a term of years the sheep is a source of great wealth in wool and mutton; but the horse does the heavy work in raising feed for making meat, milk and wool, as well as of raising all of those crops that serve directly as human food. The combined value of the horses and mules on American farms is greater than that of all the other live stock put together.

Not only is the horse business great, but it is underlaid with a measure of security peculiar to itself. No fickleness of appetite, or sudden change of the weather or agitation of fanatics can produce a popular discrimination against the use of horses. Even mechanical contrivances cannot do more than to partially displace the horse in some parts of his sphere. The great bulk of the horse's activity is expended upon the farm. There are about eight times as many horses in the country as in the city. Farming is impossible without horses. Every farmer must have them.

Nearly every farmer in this broad land is annually planning some increase in his work. Generally it takes the form of more thorough cultivation. The greater amount of work done on old farms year by year and the subjugation of new lands and reclamation of abandoned farms, all call for more horses. These processes will continue so long as our population increases and makes increasing demands for food. The farmers of this country can raise much larger crops than they now do, with no other change of policy than more thorough tilling of the soil. In no small measure their production is curtailed at present by lack of teams.

The whole tendency in farming operations is to use heavier implements for every kind of work. The soil is stirred to a greater depth than was considered necessary during its virgin vigor. There is an ambition to cover the widest possible swath at every stroke across the field. Each man must do as much field work in a day as possible, for men are scarce. There is a great economy in increasing team-power by increasing the size of horses rather than by adding to the numbers. On few implements can more than four horses be worked conveniently. As numbers increase the horses get in each other's way in the field, they are more difficult to control and to

500 BULLETS PER MINUTE.

The recently invented Benet-Mercier gun combines the rapidity of fire, range and effectiveness of a machine gun with the lightness and action of a magazine rifle. The gun is fired from a rest and held against the shoulder of its operator, who can either fire from a sitting position or lying prone. The regulation cartridge is used in clips that hold 50. A good rifleman can discharge from 300 to 500 shots per minute, if assisted in feeding by a man to fill the clips. The gun is at present undergoing a series of tests by army officers, with a view to its adoption by the government.—Popular Mechanics.

Dr. Isaac Funk, one of the members of a well-known book firm, believes, with Dr. Sargent, that women have advanced greatly within the last 50 years and that they approximate more nearly the masculine form and trend of thought. But he thinks that in the next 50 years there will not be any very great change in this direction, but that the laws which govern perpetuation will limit her advance.

How Long We Live.

A correspondent whose curiosity on the subject reveals an interest common to all mankind wants to know how long, on the average, people live. In view of the never-failing interest in the rules of life of men who have attained a green old age it would seem that knowledge concerning the average length of life would be familiar, but it is probable that not one man in a thousand could answer off-hand the question submitted. There is even less general knowledge about how long anyone of a given age may reasonably expect to survive.

The compilers of mortality tables tell us that the average number of years lived by all persons born is 41.5 years. As a matter of fact, though, the average length of life is considerably higher than 41.5 if we eliminate from consideration the heavy mortality of the first year of life. If the average is computed with the first year mortality eliminated the average life jumps to 48.7.

The American Experience Table is the basis of most mortality calculations in this country and it does not differ materially from other mortality tables. For insurance purposes the table begins at age 10 with a group of 100,000 persons, but for certain purposes the table has been extended back to zero. On this basis, out of 143,819 persons born, 100,000 of them will reach the age of 10 years. At 30 years of age, 85,441 of the group will be alive; at 50 years of age, 69,804; at 70 years of age, 58,569; at 90 years of age, 347; at 95 years of age only three will survive, and at 96 none will be left. Of course these are averages. Some individuals will exceed the average expectancy and some will fall short.

CHEROKEE KENNESAW CREOLE ETOWAH GEORGIA MARBLE

Since the very earliest ages of history, marble everywhere has been recognized as pre-eminent in the construction of the world's greatest monuments and buildings, and Georgia Marble contains those durable qualities for which the stone from the ancient quarries was so justly famous. In beauty Georgia Marble stands without an equal. It matches up perfectly, and when lettered shows a striking contrast that renders the inscription readable from a distance. The crystalline formation is so closely interlocked as to prevent the slightest degree of absorption or decomposition, rendering it proof against climatic conditions, and it remains beautiful and unbroken always.

It stands to reason that with so much expense in labor, the enduring quality of the paint is all important.

Why have the painting done unless the protection and durability of the job is sought?

How is one to determine the true value and obtain paint that may be depended upon for durability?

THE FRANKS SPEECH.

Reading the speech of the Hon. E. T. Franks, candidate for the Republican nomination for Governor, from an impartial standpoint, we are forced to conclude that he has the better of positions as compared with that of our countyman, Judge Ed. C. O'Rear. Mr. Franks' speech consists, in the main, of an answer to Judge O'Rear's opening address, wherein he undertook to sugarcoat and give a more sane appearance to his utterances in the Frankfort tobacco meeting where he made his now famous speech regarding the impossibility of "pushing an idea into an Anglo-Saxon's head with a bayonet."

His most ardent friend cannot deny that this statement was construed to mean that he opposed the calling out of troops to suppress lawlessness and that the "night riders" considered him their trusted sympathizer. Such a statement coming from one occupying so exalted a position, naturally deserved a rigid construction, yet the Judge never undertook to retract or modify his words nor did he even correct the popular construction placed upon them until years had passed and he became a candidate for the great office of Governor.

Mr. Franks allies himself upon the side of law-enforcement and in no uncertain terms calls the Judge to account. The latter promises to do so at an early date. Having only the kindest of feeling for him, we hope he can, in a satisfactory manner, but the task of proving "black to be white" is getting harder as intelligence increases.

The card of withdrawal of Mr. M. M. Logan was certainly a decided improvement over that of Mr. Ben Johnson.

Senator Depew says he is glad his term has expired. Why not include everybody?

Old Sol has certainly been working over time lately.

Bryan Will Not Be Candidate.

Wm. Jennings Bryan, during a brief stay in Washington held a conference with Representatives Burton Harrison, of New York; Hammill, of New Jersey, and about twenty other politicians. The participants in the conference would not discuss its purpose.

In an interview Mr. Bryan, on being asked about the rumors that he might be the next Democratic nominee for President, said:

"I am not a candidate and will not be; leave me out of it."

He refused to express any choice between Woodrow Wilson and Champ Clark, or to confirm a report of his opposition to Gov. Harmon, of Ohio.

Confesses to Robbing Post Offices

After being sweated for over an hour, John Tillman, aged thirty-three years, held by the police at Lexington on suspicion of being a post office robber, confessed to having perpetrated two post office robberies in Kentucky, one at Hedges and the other at the L. & E. Junction. At the former place he says he secured 300 coppers, while at the latter he says he stole all the stamps in sight. The display of these stamps while drinking in a saloon there led to his arrest. Tillman claims Cleveland, O., as his home, and was en route to Cincinnati when arrested. The police believe he is a noted crook, and is probably wanted elsewhere for similar jobs.

AMERICAN TOBACCO CO.

Ordered to Be Dissolved By Supreme Court--Affiliated Companies Also Ordered to Dissolve.

The Supreme Court of the United States late Monday afternoon decided the so-called "tobacco trust" case in favor of the government. It holds the defendant corporations are a combination in restraint of trade under the Sherman anti-trust law. The American Tobacco Company is ordered to dissolve as are also all affiliated companies and enjoins the further monopolization of commerce in tobacco. The decision was read by Justice White. The suit was instituted in 1907 in New York. The trust is said to have started to organize in 1890 at which time the American Tobacco Co., started and at which time the company took over five then existing tobacco companies, and have gradually from time to time absorbed nearly all other tobacco companies. This is the second trust suit decided in the last ten days and both of them have been won by the government, the other suit being the dissolution suit of the Standard Oil Co.

The effect of this decision cannot as yet be estimated as it is not known what steps the American Tobacco Co., will take in the matter.

Horses Working Good.

The following workouts will show how fast the horses being trained at the Montgomery County Fair Grounds are rounding into form. The best work done so far this season has been the mile of Peter Mack, the fine three-year-old of John McCormick who stepped the mile in 2:27. Grace Cecil owned by Bean Brothers worked a nice mile in 2:28 and could have gone several seconds faster. Sister Ella worked a nice mile in 2:30 for Mr. VanEvera. He is also working a yearling that is said to be a speed marvel. Orphan Boy, owned by John M. Barnes, worked a mile in 2:28 and is thought to be a high class youngster. Any number of horses worked in from 2:35 to 2:45. J. Malcolm Forbes the sensational young stallion belonging to J. R. Magowan is being given only slow work as is also Mainleaf. Sim Axworthy, Neva Todd and Lucile Brooks, these fast ones will be shipped to Columbus, June 15th, for final preparations for the Grand Circuit in charge of Richard Curtis.

Mr. Magowan will leave several horses and a few yearlings here in charge of "Doc" Curry who has a reputation as one of the best coit drivers in the country. Considering the time of year all the horses at the track are well forward in their work.

The report of Bank Inspector Hurt, which was filed with the Secretary of State shows the shortage of Cashier Myall, of Paris, to be \$57,000. HELPS CONVICTS TO REFORM

Splendid Work Being Done by Officials of John Howard Industrial Home at Boston.

What society shall do with discharged prisoners is slowly but surely being solved by the John Howard Industrial home at Boston, which celebrates its twentieth anniversary soon. A most pathetic object is the discharged prisoner, who thinks every passer-by sees the prison stigma upon him. This saps his courage and he slips back again until once more he is associating with criminals. The Howard home seeks to furnish him with a grip upon a new life.

During the last 20 years nearly 21,000 discharged prisoners have been cared for by the home until positions have been found for them. The home was founded in 1890 by the present superintendent, Albert Arnold, and several other workers.

"I am sometimes asked," says Superintendent Arnold, his kindly face beaming good nature, "how many men are deserving of help? I always reply that all are good men. Every one has good points."

"Too much criticism is directed against them for the slightest errors. All they need is encouragement in order to forget the old life and start the new."

After Grippe or any Sickness Vinol Creates Strength HERE IS PROOF

"After a long attack of Grippe,
Mrs. Vaught seemed unable to re-
cover her strength. She was very
weak and had no appetite. VI-
NOL rapidly improved her condi-
tion and restored her to health. I
sincerely recommend its use during
convalescence or any run down
condition."

JUDGE C. N. VAUGHT,
Huntsville, Ala.

Miss Adelaide Gamm, of Water-
town, Wis., writes, "After a severe
attack of the Grippe, my system
was in a very weakened, nervous,
run-down condition. I took VI-
NOL with the best of results,
and it made me feel better and
stronger than I have been for years."

We have never sold in our store
a more valuable health restorer for
weak and run down persons than
VINOL, and we ask such people in
this vicinity to try VINOL with
the understanding that their money
will be returned if it does not do
all we claim for it.

IS HUMAN VACUUM CLEANER

Amanda's Economies In Line of Good
Housekeeping Have a Screw
Loose.

Long before the introduction of
the vacuum cleaner Amanda had
achieved by sheer persistence of arm,
the energetic wielding of broom and
brush, the precise results accom-
plished by this excellent invention.
Her husband whimsically complains
that the house is always in process
of renovation and seldom is a con-
dition which can be considered com-
fortable and livable, but he is a mere
man and little can be expected of
him. Of course, Amanda is ill from
time to time, usually as the result of
doing more than she ought. She has
headaches, backaches and nerves that
are on edge. Her sons slip out of
the house in the evening because
they prefer to be where they are not
reproved if they draw a chair from
its place or leave a newspaper on the
floor. Her daughters enjoy visiting
much more than staying at home,
and her maid seldom remains longer
than a week or two. She had nine-
teen successive maids in a single
season. Somehow Amanda's econo-
mies in the line of good housekeep-
ing have a screw loose. She observed
one day that she sympathized with
the women who liked to have her
house perfectly ordered and who
then wished that she could take her
family and live in the barn so that
the house need not be disturbed.—

Herald.

DON'T EXPERIMENT

You Will Make No Mistake if You
Follow This Mt. Sterling
Citizen's Advice.

Never neglect your kidneys.
If you have pain in the back, urinary
disorders, dizziness and nervousness, it's
time to act and no time to experiment.
These are all symptoms of kidney trouble,
and you should seek a remedy which is
known to act on the kidneys.

Doan's Kidney Pills is the remedy to
use. No need to experiment. It has
cured many stubborn cases in Mt. Ster-
ling. Follow the advice of a Mt. Ster-
ling citizen and be cured yourself.

Thomas Holland, 52 E. High
street, Mt. Sterling, Ky., says: "I
have been using Doan's Kidney
Pills occasionally for two years
and I consider them an excellent
remedy. Doctors pronounced my
trouble lumbago and I spent hun-
dreds of dollars in an unsuccessful
effort to find relief. Doan's Kid-
ney Pills obtained at F. C. Duer-
son's Drug Store, did a world of
good. They removed the back-
ache, and regulated the passages of
the kidney secretions, in fact, en-
tirely cured me."

How to Keep Cool.

Here is the advice of Dr. W. Ed. Grant, City Health Officer, of Louisville, for the prevention of heat prostration:

"Dress lightly. Avoid wearing tight apparel, particularly about the chest.

Diet on vegetables. Do not eat meat nor eggs, which are stimulating, and generate heat.

"Do not drink alcoholic liquors; buttermilk is the best substitute for these for temperate drinkers.

"Drink plenty of cool water—not ice water.

"See that the living rooms and sleeping apartments are well ventilated.

"Persons suffering from any ailment or recovering from illness should remain quiet, in a shady place."

A trial will convince you that our meats are the best.

CORRESPONDENCE.

PLUM LICK.

Those that had hard ground to contend with will finish planting corn this week.

James Kendall had a valuable mare to die with colic and leave a young colt. This makes seven horses he has lost in the last few years.

J. E. Henry lost a fine mare at foaling time. The colt will live.

James Douglas and wife visited at Clay City Sunday.

James Douglas and Bob Oldson each lost a cow recently.

John Lee is all smiles over the arrival of a five-pound "kid" at his house.

Little William Howard Kendall is convalescent after a severe spell of sickness.

Wm. Barlow and wife while driving let their horse run away by taking the bridle off to let the horse drink. The horse ran over Mr. Barlow and threw his wife against a rock wall. Dr. B. F. McClure was summoned and set her broken shoulder and took twelve stitches in her face.

Dr. P. L. McClure took Willie Wade, step-son of Jas. Douglas, to Louisville to be operated on for double rupture. He stood the operation alright and will be at home in a short time.

Allie Jones Buys Good Ones.

Mr. A. G. Jones, North Middletown, Ky., has purchased a two-year-old stallion, by Rex McDonald 833 and out of the show mare, Helen Walker, from O. J. Mooers, of Columbus, Mo. Mr. Jones gave \$1,500 for this colt and \$350 for a three-year-old mare, full sister to Lord Chatterton, which is the name of the colt.

Kentucky Press Association.

The mid-summer meeting of the Kentucky Press Association will be held at Cerulean Springs, June 19-24; and one of the most enjoyable sessions ever held is anticipated. A delightful program has been prepared with many social features.

Heavy, impure blood makes a muddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you weak, pale, sickly. Burdock Blood Bitters makes the blood rich, red, pure—restores perfect health.

YOUTHFUL TAFT IS MODEST

Youngest Son of the President Evidently Has No Wish to Shine in Reflected Glory.

President Taft tells a story about Charley, his youngest son, which illustrates the fact that he is a real American boy and gives his father a little pardonable pride. Charley is just in long trousers and home from school for the holidays. He shirks none of the responsibilities of being the son of a president, but does not seek the limelight.

Charley was a guest at a party of girls and boys of his own age, and had been seated at table beside a little miss who failed to catch his name and did not recognize him. They became sufficiently interested in each other to make her wish to know his name.

"What is your name?" she pondered frankly.

"Charley," was the somewhat limited information which she received.

This satisfied the little girl for a time, but Charley is a winsome boy and her interest grew. So she pursued the inquiry further by asking: "Where do you live?"

"On Pennsylvania avenue," was the answer to this. It was true, for the White House is located on this thoroughfare.

"What does your father do?" pursued the young lady in a further attempt to place her escort, to which Charley naively replied: "Oh, he has a political position here in Washington."

It was from her hostess that the young lady finally learned that she had been sitting with the son of the president.
